Blueprint / Feature Project / Release Status Reporting

- › Blueprint and Feature Project Status Reporting
- › Release Status Reporting

Akraino Release 1 Target Date

- › The Akraino TSC is scheduled to vote on Thursday to approve the Akraino Release 1 target date of May 31, 2019

Chat Tool Feedback

- › The Akraino TSC is interested in chat tool options - Need PTL thoughts related to these tools:
- › Slack is the most commonly used chat tool
 - › The free version only saves up to 10k messages (<https://slack.com/pricing>)
 - › EdgeX and the Zephyr Project use Slack
- › Rocket.Chat - Hyperledger has also been used – no message limit and minimal cost
- › The Linux Foundation can spin up Slack for Akraino fairly quickly should this be the direction the TSC would like to go.
