Akraino validation project priorities for Release 3

November 25, 2019

Tapio Tallgren

Highest priority

Refactor test framework

(Like what Naga is proposing)

AKRAINO EDGE STACK

CI/CD for tests

Need to think about how to do this

AKRAINO EDGE STACK

Redfish tests

Once they are fixed

AKRAINO
EDGE STACK

Security tests integration

AKRAINO EDGE STACK

Take UI into use

- UI is in use, with DNS name etc
- Lab owners can register their labs and integrate with it
- The JJBs that guarantee the correct URLs and format are still WIP

AKRAINO EDGE STACK

Medium priority

More thorough container testing

- Docker bench is already integrated
- More tests can be added

AKRAINO EDGE STACK

Nice to have

AKRAINO
EDGE STACK
