

# IEC API Document

This document covers both Integrated Edge Cloud Type 1 & 2.

For Release 1 the API documentation is just a placeholder: [https://gerrit.akraino.org/r/gitweb?p=iec.git;a=blob\\_plain;f=docs/release/api/api.rst](https://gerrit.akraino.org/r/gitweb?p=iec.git;a=blob_plain;f=docs/release/api/api.rst)

The purpose of this Document is to enumerate the APIs which are exposed by Akraino Blue print project to the external projects Akraino/Non Akraino for interaction/integration.

This document should be used in conjunction with the architecture document to understand APIs at modular level and their interactions.

This document should function as a glossary of APIs with its functionality, interfaces, inputs and expected outcomes as the following example:

API1 < var 1, var 2, var 2>

(

functional description

) ret 1, ret 2
