

REC Project Minutes 2019.06.06

Attendees

- [Paul Carver](#)
- [John Craig](#)
- [Tina Tsou](#)
- Jessica (from Fujitsu in Texas)

Agenda

- No set agenda

Minutes

- General discussion about status. No major developments, but the ISO published by the CI system should now work with Open Edge, Dell R740xd and HP DL380.
- Tina reports that work on Marvel ARM server and New Hampshire lab is progressing well
- AT&T and Nokia are currently working on plans for next step development but nothing is finalized yet. Other contributors are encouraged to speak up if there's anything they would like to contribute to development.
- At this point in time this weekly meeting is the main communication channel, but we are open to additional communications (meetings, email, Jira, wiki, etc) depending on the preferences of contributors
