SEBA for TA minutes 2020.02.03

Attendees

- Julie Lorentzen
- Tom Moore
- David Plunkett
- Ciprian Barbu
- Zack Williams
- Tina Tsou

Agenda

- Discussion/status check - voltha sanity tests for ARM-based system, packer job to build AMI images

Minutes

- Status:
  - Zack and Ciprian to follow-up offline re: adding ARM-64 support to packer jobs
  - Zack: patches discussed on Jan 27 meeting are through LF gerrit, now waiting on a release
  - Ciprian: multi-arch work status - would like to identify exact jenkins jobs and YAML files
  - Ciprian did another version of patch for voltctl; Zack - working on getting another +1 before merge, should be done soon
