

PCEI Release Notes

Jian Li

Summary

This document provides the release notes for the PCEI Blue Print in Akraino. The purpose of the Public Cloud Edge Interface (PCEI) Blueprint family is to specify a set of open APIs for Telco Edge Blueprints to expose towards Public Cloud Service Provider instances at the Edge. In Release 3 we choose to expose the set of location APIs as defined by the ETSI MEC to showcase the PCEI capability.

Release Data

Document Version Changes

Version	Date	Author	Rationale
0.1	20 May 2020	PCEI Blueprint Team	First draft

Deliverable

Software Deliverable

Software is available in the [PCEI repo](#)

Documentation Deliverable

- [PCEI API Document](#)
- [PCEI Architecture Document](#)
