

PCEI Blueprint Minutes 2020.06.24

Attendees

- [Tina Tsou](#)
- [Oleg Berzin](#)
- [Wei Chen](#)
- [xinhuli](#)
- [Gao Chen](#)
- [Suzy Gu](#)
- [Jian Li](#)
- [Tianji Jiang](#)
- [Jane Shen](#)

Agenda

- Review use cases development plan
- Review Blog

Minutes

- The team reviewed Use Case for UPF Distribution and Local Break-out
 - Add 4G interfaces to the use case architecture ([Oleg Berzin](#) - added)
 - [Gao Chen](#) proposed to review/align with 3GPP interfaces
 - [Oleg Berzin](#) clarified [Wei Chen](#) question on "UPF Interconnect" - does not mean the N9 UPF-UPF interface. Means the networking connectivity for UPF SGI/N6 interface to connect to Edge Compute and Clouds
- The team reviewed draft PCEI Blog
 - [Jane Shen](#) commented that Akraino whitepaper "Cloud Interfacing at the Telco Edge" has many commonalities with the PCEI Blog
 - [Oleg Berzin](#) received a copy of Akraino whitepaper from [Jane Shen](#) and provided comments
 - The team may need to provide an updated description of PCEI to Akraino TSC for the paper
 - [Jane Shen](#) suggested that a PCEI-specific white paper may be beneficial (in addition to the blog)
