

Maturity Review Certification of Video Security Monitoring Blueprint

The AI Edge-School/Education Video Security Monitoring is requesting maturity review.

This page references the requirements in [BP Graduation Review Processes and Criteria](#) specifically the table cell for Incubation -> (Mature) on the second row from the bottom of the page.

- Validation lab check
 - Multiple Jenkins jobs exist for deploying AI Edge to multiple Lab and for otestack installation and various testing. The jobs listed below are the primary CD jobs. Additional job logs can be viewed on Nexus, but these listed here are the relevant ones for Akraino maturity review.
 - Baidu
 - <https://nexus.akraino.org/content/sites/logs/baidu/job/aiedge-otestack-master-deploy/>
 - <https://nexus.akraino.org/content/sites/logs/baidu/job/aiedge-otestack-master-validation/>
 - Ampere Pod 2
 - <https://nexus.akraino.org/content/sites/logs/webank/job/aiedge-video/1/>
- Release inclusion check
 - [Release 3 Planning](#)
 - was included in Akraino Release 3
 - participate in Akraino Release 4
 - [Release 4 Planning](#)
- SW quality/functional check
 - The validation tests are done in the bare-metal server, and they also can be done in the VMs.
 - Video Security Monitoring has passed the blueprint validation tests in Baidu and Ampere Pod Labs, the results of lynis, vuls and kube-hunter check are:
 - https://nexus.akraino.org/content/sites/logs/baidu/job/security_scan/aiedge/2/results/
 - <https://nexus.akraino.org/content/sites/logs/webank/job/aiedge-video/1/scan/>
- Hardware definition check
 - The hardware information for the primary validation lab is available in the installation guide: [Video Security Monitoring R4 Installation Document#RecommendedHardwareRequirements](#)
 - The second validation lab had installed the AIEdge and passed the test check, the hardware information is shown in [Ampere Pod 2](#).
- Upstream dependency check
 - The upstream dependencies are enumerated in the software prerequisites session on the wiki: [Video Security Monitoring R4 Installation Document#SoftwarePrerequisites](#)
- Documentation check
 - Documentation has already been created for Akraino Release 4 [Video Security Monitoring Release 4 Documentation](#)
- Community Health and Stability check
 - Meetings are held weekly and minutes are published with a list of attendees <https://wiki.akraino.org/display/AK/The+AI+Edge+Blueprint+Family+Meetings>
 - Meeting content includes welcoming new participants and providing introduction to the projects as well as discussing ongoing progress
 - Contributions come from Baidu, Arm, WeBank, Huawei and Futurewei
