

# PCEI Blueprint Minutes 2020.07.15

## Attendees

- [Oleg Berzin](#)

## Agenda

- [Suzy Gu](#) present Call Flows
- [Jane Shen](#) present Call Flows
- [Gao Chen](#) present use case and GSMA info
- [Oleg Berzin](#) review updated UPF Distribution diagrams and call flow sketches
- Update on the PCEI Blog
- Overview of KubeEdge

## Minutes

- PCEI Blog
  - Updates have been made. The Acknowledgement sections has been added and populated.
  - The team decided to hand-over the draft blog to LFE by 7/29
- Overview of KubeEdge by Huawei moved to the 7/29 meeting
- [Suzy Gu](#) and [Jane Shen](#) were not able to attend the call. The call flows proposed in the blog will be reviewed at the next opportunity
- [Gao Chen](#) presented the GSMA Operator Platform (OP)
  - OP White Paper <https://www.gsma.com/futurenetworks/resources/operator-platform-concept-whitepaper/>
  - OP Telco Edge Cloud Participants (TEC): China Mobile, DT, EE, KDDI, Telefonica
  - There are commonalities between the PCEI goals/use cases and potentially PCEI may play a role in the GSMA OP (e.g. the NBI interface in GSMA OP may be implemented as the PCEI P2 reference point)
  - [Gao Chen](#) agreed to act as a liaison between PCEI and GSMA
  - At an appropriate time (when the use cases and call flows are better defined) PCEI would like to make a presentation to GSMA OP. [Gao Chen](#) agreed to facilitate when PCEI is ready to present.
- [Oleg Berzin](#) walked through the updated Use Case Development diagrams:
  - UPF Interconnection Scenario and Call Flow (sketch)
  - UPF Placement Scenario and Call Flow (sketch)
