

API Subcommittee Meeting Notes, 17Apr20

17 April 2020 / 9:00 AM PDT / Zoom meeting

Attendees

Jane Shen, Tina Tsou, Tim Epkes, Deepak Kataria, Jiafeng Zhu, Ike Alisson, Jeff Brower, Neal Oliver, Dan Druta, Doug Eng

Meeting Notes - Brower

Agenda

Review of current activities

Jane:

1. TSC has reviewed the whitepaper proposal, it was well received
2. ONAP architecture group

Involvement with SDOs, in particular ETSI MEC. Jane will present the white paper proposal in their weekly meeting and ask for feedback and possibly contributions

-Ike Allison commented on key SDO areas to pay attention to:

- TM Forum definitions of telco network slice, "logical network" and "instance storage compute services"
- increasing alignment of ETSI and 3GPP

Notes

Jane slide presentation:

- whitepaper ToC -- outline of sections to be covered, contribution opportunities for subcommittee members
- motivation -- purpose of the whitepaper
- PCEI slide
- ETSI MEC architecture comparison
- Edge service models
- Azure edge stack
- ANI (mentioned by Ike)
- Edge enabler module proposed by Jane
