

API Subcommittee Meeting Notes, 21 Aug 20

9:00 AM PDT / Zoom meeting

Attendees

Jane Shen, Jiafeng Zhu, Jeff Brower, Doug Eng, Neal Oliver, Tina Tsou, Ike Alisson, 12144589157
Meeting Notes - Jiafeng Zhu, Jeff Brower

Minutes

1. API Portal update: To move the existing portal HTML to the official server. Discussion with ETSI MEC decode group, they wanted to get down details about APIs work, allowed our portal to crosslink to their contents with warning window popped up before navigating out of Akraino website .
2. White paper prep: will publish the white paper with ONEF event, the LF edge marketing team is doing final touches of the paper. We put the whitepaper link in our file archive. Akraino projects exports may not agree with SOD's technical position. There are many works that we need to bridge the gap between cloud native projects and SODs.
3. Propose API reporting requirements for R4: Jane will draft to TSC proposal, need inputs from this group.
