5	Upcoming Events	Aaron Williams	03/01/2021 - 03/03/2021 Akraino Technical Meetings - Spring (register at https://events.linuxfoundation.org/akraino-technical-meetings-spring/)
6	Copyright / Attribution Questions	Jeff Brower	Questions have come up on copyright, including: 1) How should external groups attribute and copyright Akraino material, for example when publishing the material within a whitepaper, web page, or book ? 2) Within the Akraino community, how should we embed a copyright notice on Wiki pages, or within diagrams posted on a Wiki page or other web pages (e.g. the API map on apiportal.akraino.org) ? 3) If a person brings in an image they developed privately or for an organization, and then modifies it for Akraino, should they show two (2) copyrights, original and Akraino ?

7	API Map Rev2 Review	Jeff Brower	Rev2 API map is ready for review, with new information reflecting API data gathered as part of R4 requirements. A PDF of the fully expanded map is here. Upon approval from the TSC, the API subcommittee would like to upload to apiportal.akraino.org and replace the existing Rev1 map. Alternatively we can figure out how to upload to a within-Akraino web page for review, which would allow expanding/collapsing sections of the map. Related: can the TSC authorize purchase of MindManager commercial package (cost about USD 300) ? This is needed by the API Subcommittee to convert XMind output to HTML. XMind does include a PDF printer but not to level of granularity and flexibility of MindManager. Previously for Rev1 we used a trial version of MindManager.
