

Akraino & Arm Partner Page

Enabled Arm architecture based hardware and software support for multiple blueprint families. These include several blueprints that share a similar set of use cases, software, and continuous integration and deployment.

- Connected Vehicle Blueprint
- Edge Lightweight and IoT (ELIOT)

IoT Gateway Blueprint

SD-WAN/WAN Edge/uCPE Blueprint

- Integrated Edge Cloud - Type 1 - 5
- Telco Appliance

Radio Edge Cloud (REC)

SDN Enabled Broadband Access (SEBA)

- 5G MEC System

Ent Apps on Lightweight 5G Telco Edge

Slice System to Support Cloud Gaming, HD Video and Live Broadcasting

- Micro MEC
- AI Edge

School/Education Video Security Monitoring

Federated ML application at Edge

Intelligent Vehicle-Infra Coop System(I-VICS)

- Public Cloud Edge Interface
- [Project Cassini - IoT and Infrastructure Edge](#)
 - [Smart Cities](#)
 - [Software Defined Camera \(SDC\)](#)
- IIoT

Predictive Maintenance with a FLIR Camera
