1	The AI Edge: Federated ML application at edge	Enzo Zhang	haihui wang	Maturity Review Certification of Federated ML Application At Edge Blueprint	Maturity Review Certification of Federated ML Application At Edge Blueprint performed over mail on 01/04 & stored at Documentation Sub-committee reviews for 2022. It is recommended to Akraino TSC to deem the maturity requirements for Documentation to "mature" level as fulfilled and accept the BP graduation request to "Mature" level.	2/28/2022 Update https://nexus.akraino.org/content/sites/logs/fate/fml/mat4/	1/3/2022 Emailed Haihui Wang: AI Edge- Federated ML blueprint has passed the Incubation phase in Release 5 it also meets the Maturity requirements for Vuls. However, The Lynis test requirements are more stringent for Maturity than Incubation. The additional Lynis Maturity criteria can be found at https://wiki.akraino.org/pages/viewpage.action?pageId=11996301#StepsToImplementSecurityScanRequirements-VulsIncubationandMaturityPASS AIL in the 'Lynis Maturity: PASS /FAIL Criteria, v1.0' section. Please run the Lynis tests against the AI Edge – Federated ML blueprint and correct issues so that all Maturity tests pass. Once all Maturity tests pass please send the lynis.log output file to the Akraino security team for review. 1/14/2022 Emailed Haihui Wang: Below is the analysis that our maturity check script returned for the lynis log for the AI Edge – Federate ML blueprint. All tests that 'FAILED' need to be corrected to be approved for maturity, there are more tests that failed than the one that you listed. For the test ID AUTH-9229 that you described, would you be able to increase the 'rounds' to a value greater than 5000 and expire passwords so that they encrypt with new values?
