

Akraino TSC Group Calendar

NOTICE REGARDING TIME ZONE FOR CALENDAR

When not logged in to the Wiki, the below calendars default to UTC timezone.

Additionally, the subscription links may not work correctly when not logged in.

By logging in, the Calendars will update to your Profile time zone settings. To update your Profile time zone settings, go to your profile (upper right), select Settings, select Settings again in the next menu.

In upper right, select Log In. You will need a Linux Foundation Account (can be created at <https://identity.linuxfoundation.org/>) to log-in.

NOTICE FOR ANDROID + OUTLOOK USERS

For those running Outlook on an Android device: The calendar feed must be added to the Outlook server via web access. Then it will propagate to all Outlook clients (i.e. PC desktop and mobile phone). If added to PC desktop directly, it only stays on that client and is not pushed to the server.
