## **Meeting Minutes 2023-0223**

Time (mins)	Agenda Items	Presented By	Note /Links/
40	Discussion on the Requirements of R8	CMCCMIGUBUPT	

Feb 23th, 2023 Attendance list: CMCC hanyu ding Hanyu DingArm TinaMIGU guangming wangBUPT Fanqin Zhou

1About promethues node exporter: details shown below. Whether node-exporter can meet the needs of the algorithm needs to be determined.

2About application: details shown below

3Need to consider how to monitor GPU resource and how to support vGPU. (new requirements from): need detail use case

## 0223

## √应用:

1、一般是几个微服务整体对用户提供服务; 咪咕业务当前一般是控制逻辑和执行逻辑分开, 不会一整组微服务拆分部署(考虑应用性能);

## √架构:

- 1、promethues node exporter,待明确能否满足算法现有需求。
- 1) 新需求1: 考虑增加对于GPU资源的监控;
- 2) 新需求2: 考虑vGPU方案,需结合use case: 推理类一般用vGPU; 渲染类的一般可直通
- 4、应用也可申报 CMCC CFITI算力实验网2023年的 业务/技术验证,可同步输出
