I'm having difficult accessing the necessary files for installing your program while working on a research project through the MEC wiki: (https://mecwiki.etsi.org/index.php?title=MEC_Ecosystem). I would like to inquire about how to gain access and successfully install the program following Release 6. I have encountered errors during the installation process using Ansible, and I am attaching the error message at the bottom of this email for your reference. Additionally, I'd like to know if there are any test samples available to confirm a successful installation of the program. I am looking forward to hearing from you. Respectfully, Jeonghun Shin
